

LULU Plant a tree contest

LULU.COM is running a contest which I have entered. You can see details on their [facebook](#) page. I get prizes if enough of my book—[A Shroud of Evidence](#)—sells, but they plant a tree with my entry.

Of course you can save trees by purchasing the [electronic version](#) of my book.

I win because a tree is planted in honor of my book. So I can breath easier.
